

Parents and Guardians:

As a courtesy to parents and guardians, the Hollidaysburg Area School District uses the School Messenger parent notification system. The notification system is used to inform parents/guardians on school related issues pertaining to attendance, district announcements, weather related schedule changes, security alerts, and other district emergencies. You have the option of being notified by phone, text, and/or email. The format by which a message is sent is determined by the level of urgency.

If you wish to receive notifications, including emails and text messages, you must have an account set up in School Messenger with the accurate contact information. **Instructions to set up an account can be found on our web page at <http://www.tigerwires.com/messenger>** Please note, you will need to have your child's student ID number in order to set up an account.

If you already have an account setup and just need to change your phone number, email address or text number, go to <http://bit.ly/1woxHuH> You are free to update your account as needed.

If you have a problem with your account, please contact [Karen\\_Weise@tigerwires.com](mailto:Karen_Weise@tigerwires.com)
